01 — MISSION & VOICE

Informing the Electorate

VoteGA is a nonpartisan civic information resource for Georgia voters. The brand should feel authoritative, transparent, and accessible — like a trusted local newspaper, not a political campaign.

> ***"Informing the electorate."***
>
> VoteGA tagline — short, neutral, and purposeful

✓ Voice (Do)

Factual and precise. Uses plain language. Acknowledges data gaps honestly. Explains API limitations clearly. Cites sources. Never editorializes on candidates.

✗ Avoid

Partisan framing. Emotional language around political figures. Promoting one party's positions. Hiding data quality caveats. Making unsupported claims.

02 — LOGO & IDENTITY

Logo Usage

The logo uses a square (non-circular) crop per the site config. The wordmark pairs 'Vote' and 'GA' — Georgia's postal abbreviation doubles as a call to action.

v Vote GA

Light background — primary usage

v Vote GA

ELEMENT	SPECIFICATION
Logo file	/assets/img/logo.png
Shape	Square crop (not circular) — round-avatar: false
Placement	Top-left navbar, replaces title text via title-img
Domain	votega.org — lowercase, no hyphen

03 — COLOR SYSTEM

Core Palette

The palette is built around a deep navy primary, a civic blue accent, and neutral grays. Party colors are semantic (not brand) colors — they encode political affiliation and must not be used decoratively.

PRIMARY BRAND COLORS

Navy / Action	Blue Primary	Blue Active	Link Blue	Link Hover

04 — TYPOGRAPHY

Type Scale

The site uses the system font stack (system-ui, sans-serif) in production. The recommended pairing for branded materials is Helvetica/system-ui headings, regular body, and Courier/monospace for code and data fields.

H1 — Page Title · Bold, 20–24pt	**Legislative Member Details**
H2 — Section Heading · Bold, 16pt	**Georgia Executive Offices**
H3 — Sub-heading · SemiBold, 11pt	**Voting History · 119th Congress**
Body · Regular, 9–10pt, leading 14	Figures reflect the candidate's most recent filing and are updated as new reports are submitted to the FEC.
Small / Meta · 7–8pt, #666	Data updated daily · Source: Congress.gov API · Last sync: May 2026

Monospace · Courier 8pt, IDs and order numbers	Order 05.12.26.01 · BioGuide ID K000394
Category Label · Bold 6.5pt, uppercase, tracked	**STATE OF GEORGIA · 2026 ELECTION CYCLE · CONGRESSIONAL REPRESENTATIVES**

05 — BADGES & LABELS

Status & Category Badges

Badges are pill-shaped (border-radius 10–12px), small text, bold weight. They encode meaning through background/foreground color pairs — never use color alone without a text label.

06 — BUTTONS & CONTROLS

Interactive Controls

Buttons use consistent padding and border-radius. Navy is used for active/selected states. Blue primary for CTAs. Pill filter buttons for faceted filtering.

07 — CARDS & CALLOUTS

Content Containers

Cards use a 1px border, 8px radius, white background. Left-border accents communicate role. Callout banners communicate contextual status with a 4px left border.

08 — DATA DISPLAY

Finance Cards & Data Tables

Financial summary cards use colored backgrounds to encode meaning at a glance. Tables use minimal styling — subtle header, light row borders.

09 — PARTY COLOR SYSTEM

Political Party Colors

Party colors are semantic, not decorative. They encode political affiliation only. Never use Democratic blue or Republican red as general accent colors in non-party contexts.

Democrat | **Republican** | **Independent / Other**

✓ Correct use

Use Democratic blue on charts and candidate cards representing Democratic candidates. Apply party colors consistently and symmetrically across both parties.

✗ Incorrect use

Don't use Democratic blue as the general brand blue for non-party UI elements. Don't use Republican red as a general 'danger' or 'error' color — use the semantic red #b91c1c instead.

10 — SPACING & LAYOUT

Spacing Tokens & Layout

The layout uses a single-column content area with a sticky sidebar on member detail pages. All measurements below are extracted from the live codebase.

TOKEN	VALUE	USED FOR
xs	0.25rem / 4px	Gap between badge and icon
sm	0.5rem / 8px	Gap between filter buttons
md	1rem / 16px	Card padding, section gaps
lg	1.25–1.5rem	Between sections, card padding
xl	2rem	Section separators, page margins
Border radius (sm)	4px	Year buttons, small elements
Border radius (md)	6–8px	Cards, finance cards, callouts
Border radius (pill)	10–20px	Filter buttons, badges
Photo avatar	80px / 140px	Candidate cards / detail pages
Sidebar width	240px	State member sidebar
Mobile breakpoint	600–700px	Stack to single column
